CAREER OBJECTIVE

Entry-level Full Stack Developer with hands-on MERN stack experience, looking to start my career by building scalable web applications and contributing to real-world projects while continuously improving problem-solving and development skills.

SKILLS

Frontend — JavaScript, React.js, Redux, HTML, TailwindCSS, CSS

Backend — Node.js, Express.js

Database — MySQL, MongoDB (Compass, Atlas)

Tools/Platforms — Postman, Netlify, Render

Programming Languages — Python, Java, C

Version Control — Git, Github

PROJECTS

Health & Wellness App(MERN Stack)

- Designed and developed a full-stack health tracking platform with **JWT-based authentication** and protected user routes.
 - Built **modular RESTful APIs** to manage fitness, nutrition, and mental health data with full CRUD functionality.
 - Implemented a **responsive React dashboard** to visualize goals, habits, and wellness trends using Tailwind CSS.
- Tech:** MongoDB, Express.js, React.js, Node.js, JWT, Tailwind CSS, Axios

Expense Tracker Dashboard (MERN Stack)

- Developed a secure expense management application with **authenticated user sessions** and persistent data storage.
 - Implemented **category-wise and monthly expense analytics** to help users understand spending patterns.
 - Integrated **interactive charts** for financial insights using Chart.js and a responsive UI.
- Tech:** MongoDB, Express.js, React.js, Node.js, JWT, Chart.js, Tailwind CSS

Movie Browsing & Watchlist Platform (MERN Stack)

- Developed a MERN-based movie catalog and watchlist app with search, pagination, and detailed views using the OMDb API.
 - Built REST APIs for favorites and watchlist management with MongoDB persistence and backend validation.
 - Created a responsive React UI with Tailwind CSS ensuring consistent user experience.
- Tech:** MongoDB, Express.js, React.js, Node.js, OMDb API, JWT, Tailwind CSS, Axios

CERTIFICATIONS

FULL STACK DEVELOPMENT WITH AI TOOLS (MERN)  | JS Basics  | HTML, CSS, Tailwind CSS  |
Advanced JS  | ReactJS  | Node.js  | Python as a Beginner | Database 

INPLANT TRAINING

Machine Learning with Python, at Thirsty Crowz, Villupuram 2021

Data Analysis using Tableau, at MuHaBa Research Lab, Villupuram 2021

EDUCATION

M.Tech Information Technology, Anna University CEG 2021 – 2023
Guindy, Chennai

B.E Computer Science and Engineering, VRS College of Engineering and Technology 2017 – 2021
Arasur, Villupuram
